Community Education & Service Dog/Disability Awareness Presentation

Paws with Purpose teams provide community awareness through educational presentations in local libraries, schools and community service organizations. Our primary goal is to create a better understanding and respect for persons with physical limitations, hopefully removing isolation barriers. We also educate the public about the role service dogs play in the lives of persons with disabilities.

Presentations Can Include the Following

- Showing of short video of a working team
- Demonstrations of service dog skills by dog in training
- Interactive demonstration (audience/dog)

Demonstrations are available for groups of all types and sizes. If you are interested in scheduling a presentation, please complete the information about your group on the next page and someone from Paws with Purpose will contact you.
